Ibach-Schwyz, 03/2015

**VICTORINOX 1884-2014
130 YEARS OF EXPERIENCE AND LIVED SWISS TRADITION**

The little red pocket knife, with cross and shield emblem on the handle is an instantly recognizable symbol of our company. In a most unique way, it conveys excellence in Swiss craftsmanship, and also the impressive expertise of more than 2,000 employees worldwide.

The principles by which we do business, are as relevant today as they were in 1897 when our company founder, Karl Elsener, developed the «Original Swiss Army Knife»: functionality, innovation, iconic design and uncompromising quality. Our commitment to these principles over the past 130 years has allowed us to develop products that are not only extraordinary in design and quality, but also in their ability to serve as reliable companions on life's adventures, both great and small.

Today, the full range of Victorinox knives is comprised of over 1,100 models. This year marks the first time that the range is presented in two, separate catalogs: «Swiss Army Knives» and «Household and Professional Knives». We are pleased to offer this updated and streamlined assortment, with our best, and perhaps future classics.

CATALOG NOTES

The product section of this catalog is divided into main categories and, if available, into sub-categories. These are marked on the top left of the page as well as on the side register. The product information (item number and blade length) within the paragraphs refer only to the image depicted to the right.

All available product variations (color and length) are listed below the product image; color swatch, item number, EAN code and comments if applicable.

HANDLE-COLORS

The color coding of the knife handles (except Swibo, beech and metal/grey) are denoted as the 5th digit or at the end of the item number:

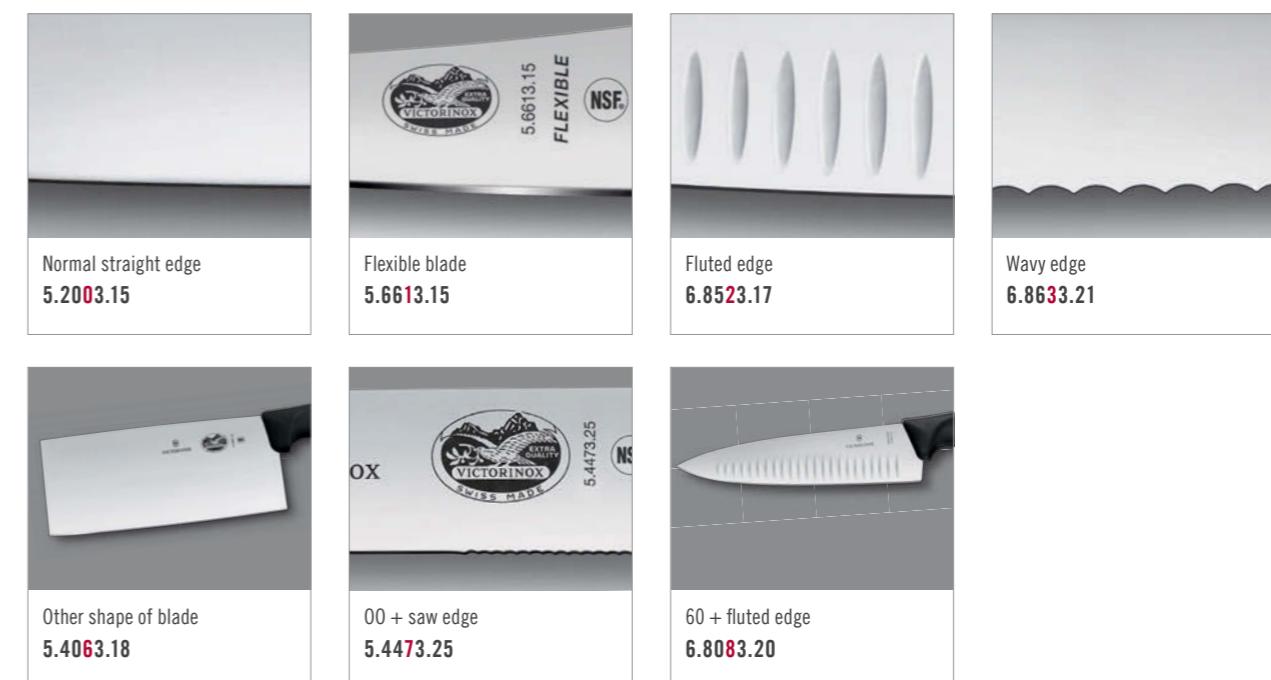

HANDLE HACCP (Fibrox)	HANDLE (other categories)
5 th digit of the item number	5 th digit or at the end of the item number
5.660 1.15 = red	6.783 1 = red
5.660 2.15 = blue	6.783 2 = blue
5.660 3.15 = black	6.783 3 = black
5.660 4.15 = green	6.783 6.4/L4/L114 = green
5.660 7.15 = white	6.783 6.5/L5/L115 = pink
5.660 8.15 = yellow	6.783 6.8/L8/L118 = yellow

ABBREVIATIONS AFTER THE ITEM NUMBER

B = Blister	M = Medium size (cut resistant gloves)
G = Gift box	S = Small size (cut resistant gloves)
L = For left-handed users (scissors)	S = SB-sheath
L = Safety Nose (for maximum safety)	W = Wavy edge
L = Large size (cut resistant gloves)	X = Vx Grip (for better grip)
M = Medium size handle (poultry shears)	XL = Extra large size (cut resistant gloves)
M = Safety Grip (for increased safety)	

EDGE AND BLADE TYPES

The edge and blade type coding of the knife assortment (except Swibo) are denoted as the 4th digit of the item number.

BLADE LENGTH (knives)

Knives that are available in different sizes, are denoted after the 5th digit of the item number.

5.6613.12 or 6.8523.17B

TOTAL LENGTH (except knives)

The total or spreading length of an article is listed separately if required.

8.0919.24 TAILOR'S SCISSORS

Total length 24 cm

MATERIAL

The following table outlines key features of the most popular handle and blade materials:

HANDLES

Polyamide (PA)	Polyamide is extremely strong and combines excellent rigidity with high impact strength. It benefits from good abrasion resistance and sliding properties, can be sterilised and is suitable for use at temperatures of up to 80 - 110°C.
Polypropylene (PP)	Polypropylene exhibits good strength, rigidity and hardness. It is suitable for sterilisation and can be used at temperatures of up to 80 - 100°C.
Polyoxymethylene (POM)	POM features excellent strength, hardness and dimensional stability over a wide range of temperatures. It benefits from good abrasion resistance, can be sterilised and is suitable for use at temperatures of up to 130°C.
Thermoplastic elastomers (TPE)	TPE materials combine the easy processing of thermoplastics with the beneficial properties of elastomers. They are extremely flexible over a wide range of temperatures, very strong and benefit from good impact and notch impact strength, even at low temperatures. TPE materials can be used at temperatures of up to 80 - 110°C.
Rosewood*	High-quality rosewood comes from India and is FSC-certified (controlled wood). This very hard wood is tough, durable and benefits from low shrinkage. It is also highly resistant to moisture..
Bubinga*	Originating from Gabon in Africa, bubinga wood is extremely hard and resistant to moisture. It is FSC-certified (pure).
Beech*	European beech is a hard wood that is ideal for work knives. Most knife blocks are also made of beech. This wood is FSC-certified (pure).

*All products with wooden handles are dishwasher safe.

Fibrox

Fibrox handles are made from PA or TPE. They feature excellent non-slip properties, can be used at temperatures of up to 80 - 110°C and can also be sterilised. These properties are ideal for ensuring safe use in a professional environment. To make the different applications for all knives visible, we offer many Fibrox models in 6 colors. This risk management corresponds to the internationally recognized HACCP system and ensures a high level of safety in food processing.

**HACCP Color Coding
(Hazard Analysis Critical Control Points)**

 red	raw meat	 green	fruit / vegetables
 blue	fish	 white	bakery / dairy
 black	universal	 yellow	poultry

Stainless Steel Blades

All steel blades are made of martensitic stainless steel. The basis for optimum function and durability of a blade, is the use of the correct steel alloy. The steel should deliver the perfect combination of cutting edge retention and corrosion protection. It should also be flexible, so it does not break during use.

The following steel alloys are used for household and professional knives:

Material no.	Abbreviation	DIN	AISI	C (%)	Cr (%)	Mo (%)	V (%)
1.4419	X38 Cr Mo14		420	0.38	14	0.8	
1.4034	X46 Cr13		420	0.43 - 0.50	12.5 - 14.5		
1.4116	X50 Cr Mo V15		425	0.45 - 0.55	14.0 - 15.0	0.50 - 0.80	0.1 - 0.2
1.4110	X55 Cr Mo 14		440 A	0.48 - 0.60	13.0 - 15.0	0.50 - 0.80	≤ 0.15

All Victorinox alloys are in accordance with Regulation (EG) no. 1935/2004 for products that come into contact with food.

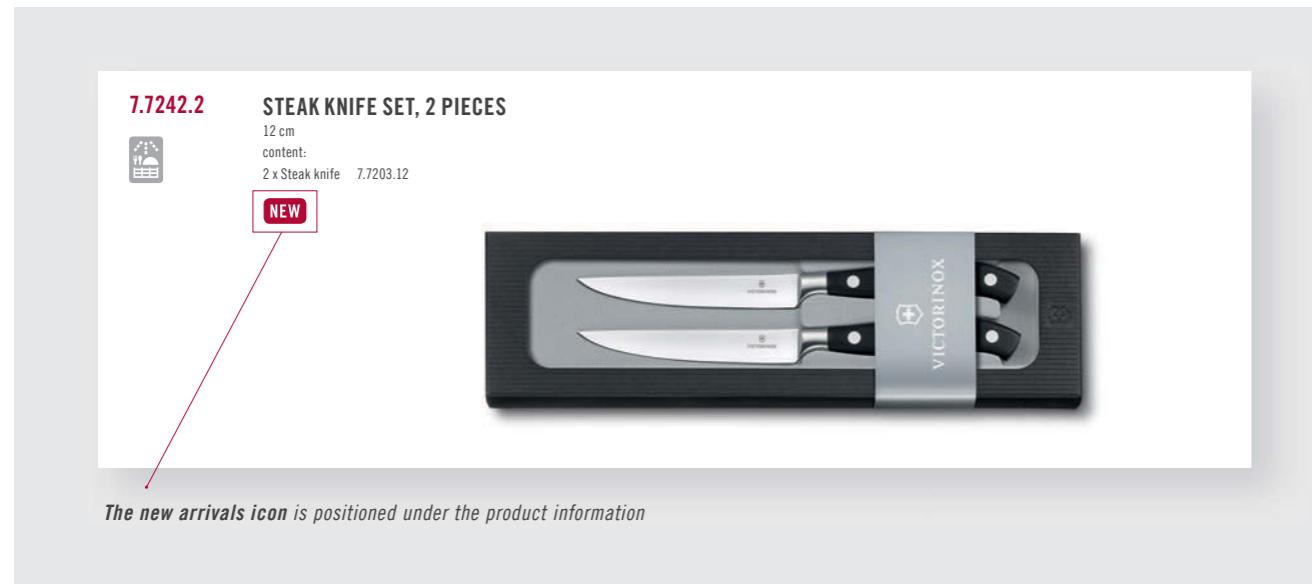

Ceramic Blades

Ceramic blades are manufactured from high-purity zirconium oxide powder. This results in a blade that has an extremely high level of hardness. Ceramic is almost as hard as diamond. The blades do not transfer taste or odor and are resistant to corrosion and acids. As a result of the high density of the surface, ceramic knives are very easy to care for. Ceramic knives are intended for the cutting of food. Ceramic blades are unsuitable for hitting, levering and cutting hard or frozen foods. This will result in chipping or breaking of the blade.

« NEW » ICON

New arrivals from 2014 and 2015 are marked with this icon «New».

S Standard packaging (S)
From left to right: S-sheath, SB-sheath, folding box

PACKAGING

There are 3 types of packaging for household and professional knives:
Standard, blister and gift box packaging.

S 1 Standard packaging (S)

The following options apply to standard packaging: S-sheath for blade protection, SB-sheath for self service, folding box or bulk products.

B 1 Blister (B)

Blister packed products are denoted with «B» at the end of the item number.

G 1 Gift box (G)

Gift box packed products are denoted with «G» at the end of the item number.

ICON

S 6 Packaging variation

The letter in the icon (above) depicts the packaging variation.

S 6 Sales unit (quantity)

The number in the icon (below) refers to the content of an item.

Please avoid ordering low quantities. In most cases, the content consists of 6, 10 or 12 pieces, rarely 1 or 20 pieces.

Disposable blade protection

The majority of the single-packed vegetable knives from the SwissClassic and Standard lines, are provided with disposable blade protection. Mostly available in sales units of 20 pieces.

Disposable blade protection

NSF

NSF International is a recognized global independent organization whose responsibility lies in the development of public health standards and certification programs. Only products that meet NSF International standards will be certified and must bear the NSF icon. All products that have been tested by NSF International in this catalog, meet the guidelines of NS / ANSI 2 and all other applicable requirements, are marked with the NSF icon.

NSF blade etching

DISHWASHER SAFE

All dishwasher-safe products bear the portrayed icon and can be cleaned in the dishwasher. Please make sure that the knives do not touch other metal utensils in the cutlery basket. In the long run, a change in color intensity and rusting may occur. Forged knives are dishwasher safe. It is however recommended, to clean the product by hand.

SWISS MADE

Swiss Made lettering;
etched onto product

Swiss Made eagle emblem;
etched onto product

To use the Swiss Made label, at least 60% of production cost must be attributed to operations carried out in Switzerland. Knives made by Victorinox are produced entirely in Ibach-Schwyz and Delémont and are thus «Swiss Made».

SWISSCLASSIC

- PARING KNIVES
- STEAK, PIZZA AND TABLE KNIVES
- HOUSEHOLD KNIVES
- KITCHEN SETS
- CUTLERY BLOCKS

The household knives in the SwissClassic series are fully worthy of their name and have become an integral part of the Victorinox range.

With ergonomically designed anti-slip handles, the knives are both comfortable to hold and dishwasher-safe. As you will see on the following pages, the wide choice of blade shapes and cutting edges provides a suitable tool for every form of food preparation – from slicing, chopping and dicing to cleaning and decorative shaping. Colored handles are available that will brighten up any kitchen.

SwissClassic – the series for success with all household tasks.

KITCHEN SETS

CUTLERY BLOCKS

This tradition-steeped series of knives has been a crucial part of our range for decades.

All Standard knives are dishwasher-safe, and with a selection of forks and spoons to choose from as well, compiling a high-quality cutlery set is easy. The series also includes a diverse range of gift sets and special utensils for baking and decorating.

The Standard series keeps you well-equipped for all kitchen tasks.

FIBROX

- CHEF'S KNIVES**
- CHEF'S CASES**
- SLICING KNIVES**
- BONING KNIVES**
- BUTCHER'S KNIVES**

Ergonomic designs, anti-slip handles, high strength, exceptional cutting power and long service life – these are just some of the advantages that make Fibrox knives so ideal for professional use. But this series is also sure to appeal to the growing number of amateur cooks who value high-quality equipment.

To ensure maximum safety when using the knives, we have also added three features to the classic Fibrox handle types – the safety grip, safety nose and Vx grip. The coloured handles are part of the Victorinox commitment to the HACCP system (Hazard analysis and critical control points – see back cover for more information).

Further items such as sharpening steels and protective gloves can be found in the "Sharpening and Safety" section. Naturally, all Fibrox knives are dishwasher-safe.

BONING KNIVES
BUTCHER'S KNIVES

Rosewood comes from India and has been valued for its high quality for centuries. Its density, strength and natural oil content make it ideal for producing knife handles. The handles in the Victorinox Wood series are carefully hand-polished, creating a smooth surface that ensures comfortable use and a natural elegance.

SWIBO

CHEF'S KNIVES
SLICING KNIVES
BONING KNIVES
BUTCHER'S KNIVES

Victorinox Swibo – a series for professional use. Professional knives with ergonomically designed handles. The extension of the handle at the blade intersection maximises safety in use. Meanwhile, the bright yellow colouring ensures the knives are easy to spot, even in a busy working environment. With several different options, all professional users are sure to find the right knife to suit their requirements. Swibo knives are dishwasher-safe and can be sterilised.

CERAMIC

These strikingly elegant ceramic knives from Victorinox are produced with ultra-fine zirconium oxide powder. The special manufacturing process used creates blades that are exceptionally sharp and strong.

Ceramic knives also feel significantly lighter than comparable steel knives, as they weigh only half as much. Ceramic is resistant to the effects of acids, neutral in taste and odour and also anti-allergenic. What's more, using a ceramic blade to cut fresh fruit, vegetables or salad does not cause oxidisation, meaning that the cut faces do not discolour and the food stays fresh for longer. Striking, prying and cutting hard items such as frozen food or bones are not suitable applications for ceramic blades as they may break.

Ceramic blades have a very smooth surface and are therefore easy to look after. We advise that Victorinox ceramic knives should be damp-wiped and left to dry.

FORGED

GERMAN TYPE
GRAND MAÎTRE

Forged Victorinox knives appeal to amateur cooks and professional chefs alike. The balance between the handle and blade is perfectly calculated to ensure ease of use even over long periods spent working with the knives.

All models in this series are forged from a single piece and benefit from a seamless transition from blade to handle. This exceptional quality and timeless elegance are what make forged knives from Victorinox so special. Forged knives also feature a bolster – a thickening of the steel where the handle and blade meet that is designed to prevent your hand from slipping between the two.

The knives in this series are generally dishwasher-safe, though hand washing is recommended to maximise their service life.

SPECIAL KNIVES

Cutting a particular material sometimes requires a special technique, blade shape or extra blade flexibility...

Are you looking for a special tool of this kind? Or a knife for long-term industrial use? Find exactly what you are looking for here – from knives for both professional cheese dairies and cheese enthusiasts, to fluted blades and paper or cable knives with sturdy beech handles.

Victorinox also offers a wide range of speciality knives for industry and crafts.

SHARPENING + SAFETY

SHARPENING STEELS

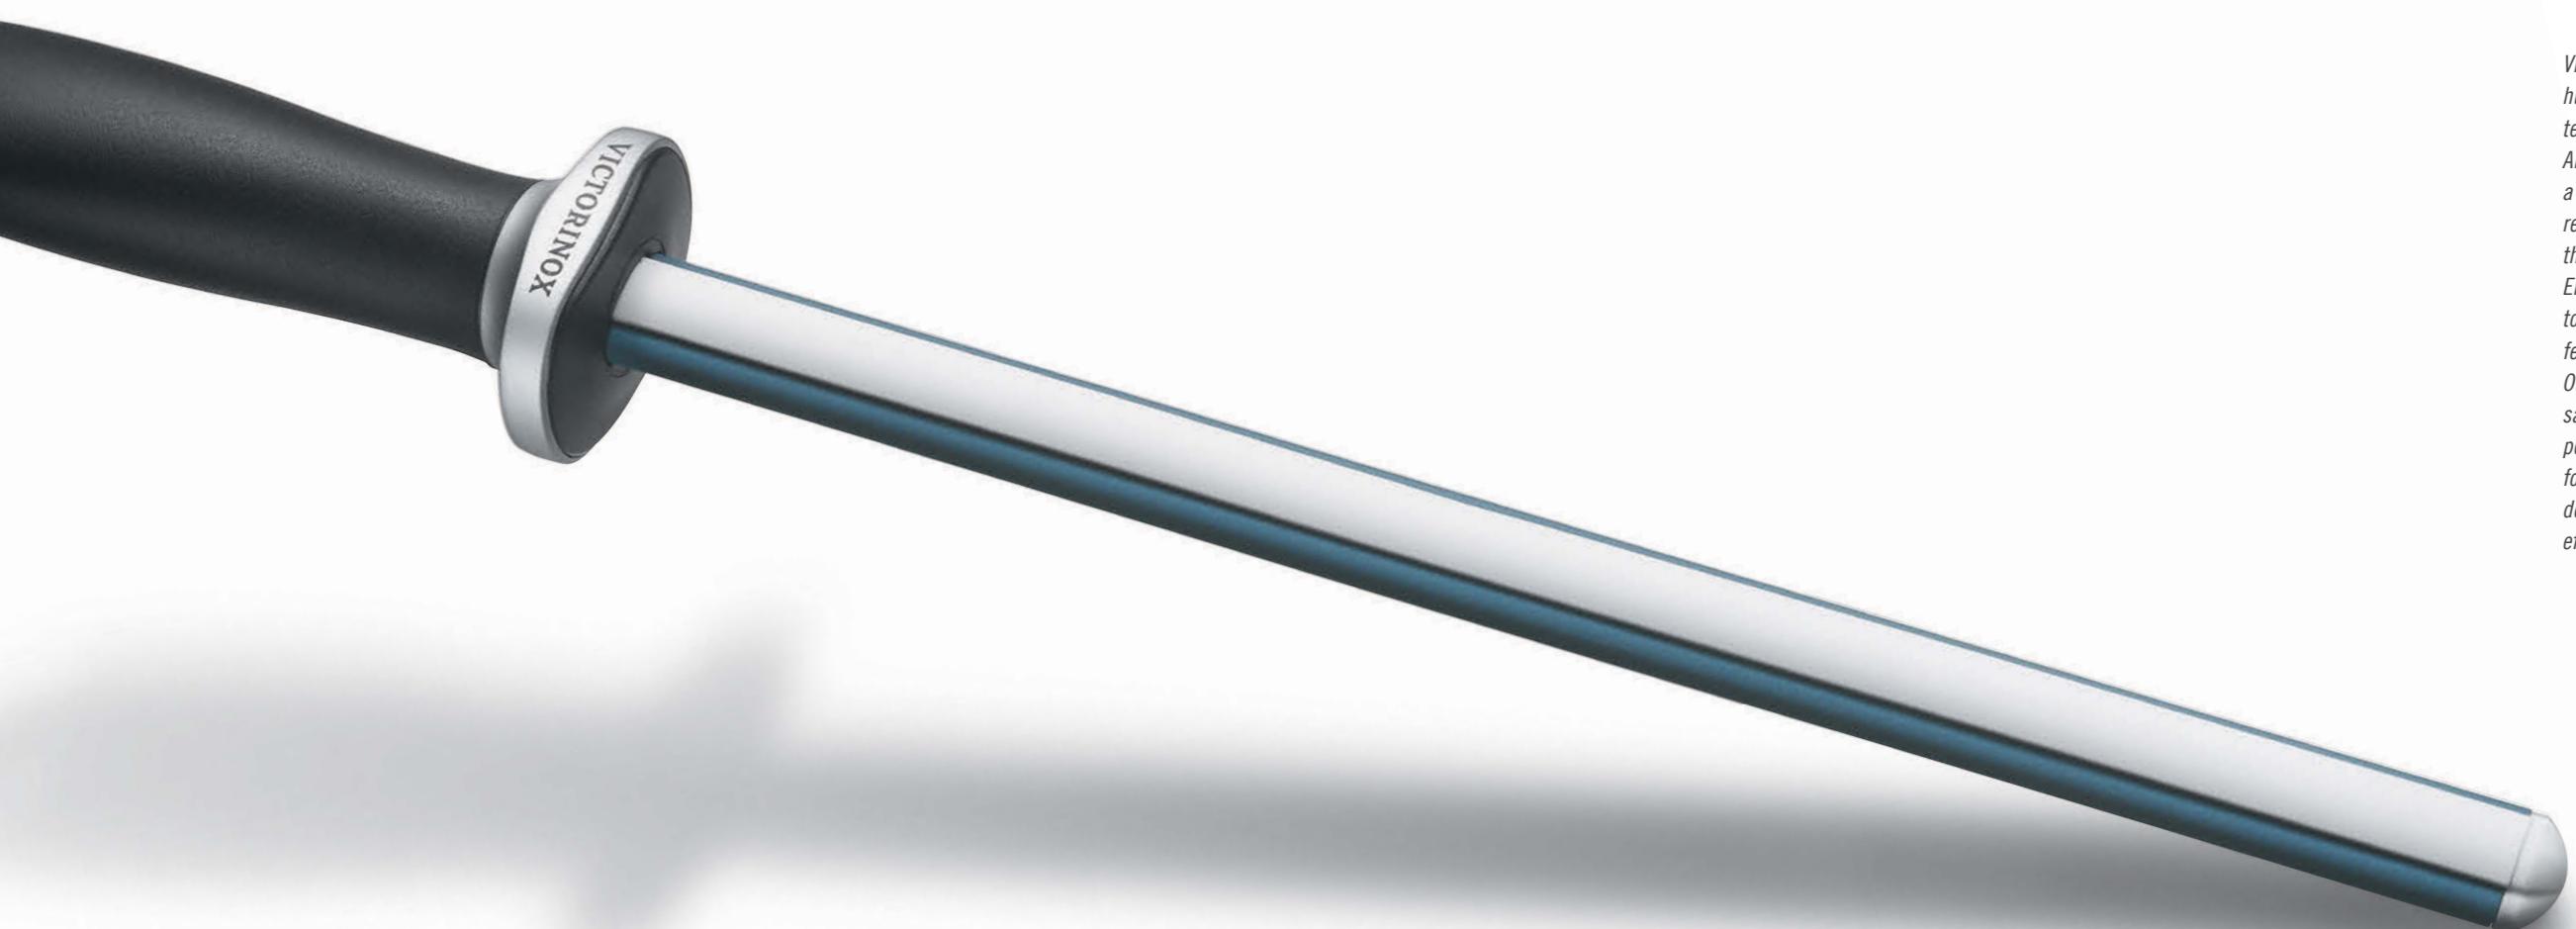

KNIFE SHARPENERS AND
CUT RESISTANT GLOVES

Victorinox sharpening steels and sharpeners are hugely popular with professionals and keen amateur cooks alike.

All our models are produced in Europe and have a nickel and chromium coating for optimum resistance to rust. Experience also shows that they offer exceptionally long service life.

Ergonomically designed handles ensure that the tools are comfortable to hold and suitable for professional sharpening once in use.

Our tried-and-tested protective gloves increase safety when working with knives. Our handy sharpeners are recommended for sharpening knives for day-to-day household use. Their sophisticated design makes them exceptionally easy, safe and efficient to use.

 Cut resistant gloves are sold individually, not in pairs. These gloves are «ambidextrous» and can be worn on the left or right hand.
 Knitted workingglove made of Brinix® (0,05 mm), A8C, polyester and stainless steel.
 Application: Slaughterhouse, food preparation or food service.

SCISSORS

HOUSEHOLD AND PROFESSIONAL
SCISSORS, STAINLESS

HOUSEHOLD AND PROFESSIONAL
SCISSORS, FORGED

Since the 1930s, as well as offering Swiss Army Knives, we also offer scissors in our assortment. The selected models are and have always been manufactured by reputable experts in Europe and all tools comply with the high quality standards of Victorinox.

In the following selection, you will find both stainless scissors with non-fading, impact-resistant and heat-resistant synthetic handles, as well as remarkably crafted forged and nickel-plated scissors. And last but not least, the popular "stork scissors" with their playful form and gilded handles, are also included.

MULTI-TOOLS

For dirty and sticky blades, we recommend opening and closing the blades several times in warm water until they move freely. Allow to dry completely. Add a drop of oil between the blades and the tool casing or springs as well as other friction surfaces.

Multi-tools should never be cleaned in a dishwasher.

We recommend:
Multi-Tool Oil (item number 4.3301)

Key features:

- odorless and tasteless
- high resistance to aging
- protection against wear and corrosion
- NSF certified and food compatible

HOUSEHOLD AND PROFESSIONAL KNIVES

Victorinox recommends rinsing knives under running water directly after use. Salt or acidic leftovers can lead to spotting if the knife is left uncleared over longer periods of time. Knives that are dishwasher safe are marked with the corresponding icon within the catalog.

VICTORINOX WARRANTY

Victorinox AG guarantees all knives and tools to be of first class stainless steel and also guarantees a life time against any defects in material and workmanship (save for electronic components 2 years).

Damage caused by normal wear and tear, misuse or abuse are not covered by this guarantee.

→ A service charge may apply for repairs and services that are not covered by the warranty.

→ Our standard warranty repair includes replacement of parts that are broken, bent or suffer from general wear and tear. All other parts will be polished.

→ If there are tool parts of sentimental value, that you do not want replaced or if you wish for a part or parts to be returned, please state this in written form.

→ If you are from Switzerland, please contact your local retailer or send us your tool, well packed, directly to our repair department.

VICTORINOX AG
Reparatur-Abteilung
Schmiedgasse 57
CH-6438 Ibach-Schwyz

→ If you are from Germany, Austria, Belgium or Luxemburg, please contact your local dealer or send us your tool, well packed, directly to our repair department:

VICTORINOX AG
Auslieferungslager
Reparatur-Abteilung
Alfred-Nobel-Strasse 5
DE-79761 Waldshut-Tiengen

→ If you are NOT from Switzerland, Germany, Austria, Belgium or Luxemburg, please contact a local Victorinox representative or local dealer. They will be glad to assist you and possible mail delivery fees to and from Switzerland, are included in the warranty.

FIBROX HACCP-LINE

HACCP (Hazard Analysis Critical Control Points) is a preventive system – a risk management that provides safety for food and consumers. Victorinox has implemented the colored Fibrox handle HACCP concept according to the international food regulations.

Thanks to the colored handles, the scope of application for each knife is visible.
