COMPANION FOR LIFE

2014

WELCOME

Dear Victorinox Partner,
for nearly a year, our teams have been working on the integration of the Wenger products into the Victorinox Knife Division. To give all of you a better overview of this additional assortment, we decided to find a special form of presentation.

For this reason, we have created a catalogue to provide information about the available new products, prices and packaging possibilities. Our common goal is to bring these exciting products to the end consumer.

In 2015 we will facilitate you with our overall standard catalogue, as you are used to. This catalogue will show the entire product range of Victorinox. In the meantime we are excited to launch the new “Delémont Collection” together with you.

Modifications

In this catalogue you find new Swiss Army Knives from Victorinox. Some of our clients know these models already, since they were marketed by our subsidiary from the brand Wenger.

We have adopted many features and production steps. Some have been adapted. For instance the products now have a new toothpick and new tweezers. Also we have adapted the reamer, the screw driver and the can opener.
